JANUARY 3, 2022

DemKota Ranch Beef, a USDA inspected facility, establishment number M-45471, uses metal detection on boneless beef trimmings. The metal detectors are tested and use standards of 6.0mm- ferrous, 7.0mm- non-ferrous, and 9.0mm- stainless steel. The detectors are checked at start-up, various times throughout the day, and at the end of production to ensure they are working properly.

If you have any questions, please do not hesitate to contact myself at the information below.

**Thank you,**
